

+ Your ALLEVYN[◇] LIFE dressing reminder

A guide to managing your care

I have chosen an **ALLEVYN[◇] LIFE** dressing because I believe it's the best dressing for your wound. As a more independent patient, I think you could benefit from going at least **one more day** without having to have your dressing changed.

- **ALLEVYN LIFE** has been **designed with help from nurses** and is used by healthcare professionals around the world with years of wound care experience.
- The dressings are longer lasting^{1*}, showerproof², and comfortable^{3,4}.
- You'll know when it needs changing with the **easy to read change indicator** on the top of the dressing.⁴
- Excess fluid is **reassuringly masked**³, and the dressing is cushioned for comfort.
- Helps to keep potential leaks and odour **locked away** for more peace of mind.^{3,5,6}

ALLEVYN[◇] LIFE
Foam Dressing

These features mean that the dressing can be left on for longer, aiming to give you at least **one more day** between dressing changes. This means more time to get on with the things you want to do in your daily life.

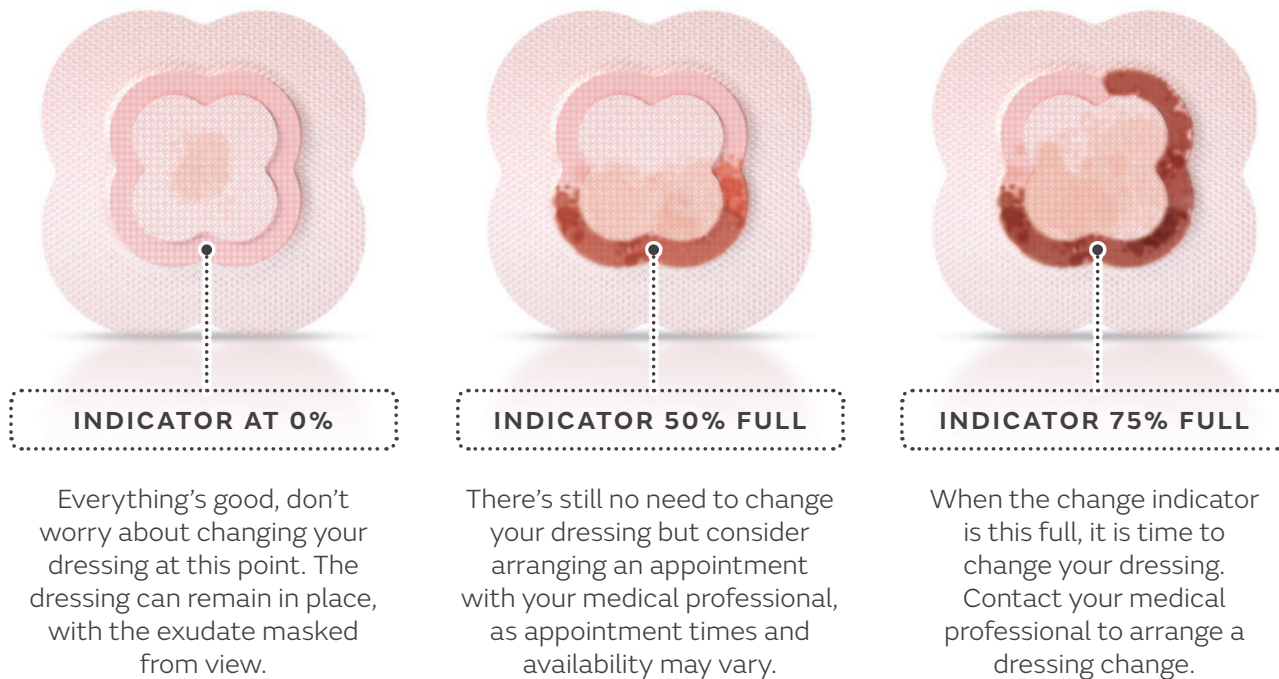

If you become concerned about your dressing in any way, contact me or another member of your medical team:

Helping you get **CLOSER TO ZERO**[®] human and economic consequence of wounds

With **ALLEVYN® LIFE** excess fluid from your wound is masked³, whilst also helping to keep potential leaks or odours locked away^{3,5,6}. Here's a helpful diagram to show you when to get your dressing changed:

Always read the label. Follow the instructions for use. If symptoms worsen or change unexpectedly, talk to your healthcare professional.

*ALLEVYN® LIFE can be worn almost twice as long as standard dressings. n=37; dressing retention is 1.92x longer. **References:** 1. Joy H, Bielby A, Searle R.
