Webinar Series Part 3

Meniscus Mastery: Reflecting on 30 Years of Surgical Evolution and Envisioning the Future

Join us for our webinar on meniscal repair, designed to celebrate the advances in meniscal surgery over the past three decades. This session will include discussions and debates on surgical approaches and strategies to treat different types of meniscal tears. Attendees will also have the opportunity to ask questions and gain insights from our expert faculty.

Live Session

Wednesday, October 30, 2024

19:00 Eastern Standard Time
