ADVANCED KNEE INSTRUCTIONAL COURSE

Program Overview

This advanced knee instructional course is designed to be an interactive learning experience led by renowned sports medicine international surgeon faculty.

Participants will learn advanced surgical techniques and the latest innovations in knee sports medicine surgery.

Delegates will discuss complex cases with their peers and learn from experienced faculty members who will share their insights and expertise through lectures, live surgical demonstrations, and interactive discussions.

The course will also include hands-on workshops using cadaveric specimens, allowing participants to practice and refine their surgical skills.
