

+ Go postless

Avoid post-related groin complications^{1,2}

Smith+Nephew

THE PINK HIP KIT®

The Postless Hip Positioning Solution

DERMAPROX™ BOOT LINER

For the Smith+Nephew
Hip Positioning System

Distributed by **Smith+Nephew**

Thinking about going Postless?

The trend to go postless is becoming more evident everyday and by using the Pink Hip Kit[®] we can help you get there. Surgeons are switching to postless because they are seeing a reduction of groin-related complications and post-operative pain typically associated with the post.^{1,2} Our Pink Hip Kit and DERMAPROX[™] BOOT LINERS are an ideal solution for performing postless hip arthroscopy on the Smith+Nephew Hip Positioning System and the Hana[®] Table.

Some of the benefits of using the Pink Hip Kit include:

Fewer costs³

Leverage existing investments of the Smith+Nephew Hip Positioning System or the Hana table.

Potential pain reduction⁴

Potential for reduced post-operative pain and improved recovery times for postless procedures compared to standard distraction.⁴

Easier access^{*}

Removal of the post allows for a greater range of motion and may make complex procedures easier while improving C-arm visualization.⁵

^{*}compared to standard techniques

Secure positioning

Dual-layer protection helps secure and cushion the patient's foot in an anatomically correct position while in traction. Boot liners feature a protective layer of soft and breathable DERMAPROX™ which may help minimize the risk of skin redness and tissue breakdown.

The DERMAPROX difference

A protective layer of DERMAPROX, made without latex-rubber, may help to safeguard against shearing and pressure related complications.

Some of the benefits of using the DERMAPROX BOOT LINERS include:

Potential reduction in skin redness

Dual layer protection cushions the foot and the DERMAPROX layer which may help to protect against pressure-related injury and minimize the risk of skin redness.

Practical

One size may help simplify inventory management costs, and the single use design reduces cross contamination risk.

Ease-of-use

Simple set-up to minimize prep time and create a standard of patient care.

+ Pink Hip Pad

A patented disposable pad, made without latex-rubber, customized for the S+N Hip Positioner and Hana® Table, to allow distraction without a perineal post.

Head Rest

Provides anatomically correct support for the neck and head in supine position

Arm Board Pads

Helps relieve pressure on patient's arms

Arm Board Straps

Helps secure patient's arms

Body Strap

Secures the patients to the Pink Hip Pad

Lift Sheet

Used to help move and position the patient on the Pink Hip Pad

Perineal Post Cutout

Allows for flexibility to switch to a perineal post if desired

+ DERMAPROX BOOT LINERS

Secures and cushions patient's feet

Ordering information

S+N Hip Positioning System Pink Hip Kit

Reference	Description	Quantity
72205286	PINK HIP KIT® - S+N	3/box
