

Every ALLEVYN[®] COMPLETE CARE Foam Dressing contains enhanced technologies to **minimise strike-through**,⁹ enable extended wear times of up to **7 days**^{6,7} and support **undisturbed healing**.^{3,4}

Visually masks unsightly exudate to keep the dressing **looking fresh for longer** and shows when it needs changing.^{8,10}

No need to change

Consider changing

Time to change

Unbonded design enables layers to frictionally slide within the dressing to **absorb shear forces and which may help reduce soft tissue strain**^{*11} and protects against friction, pressure, and microclimate.^{†12-14}

ShearDEFENSE[®] Technology

ExuMASK[®] Technology

ExuLOCK[®] Technology

Provides superior absorbency^{‡15,16} that **locks in exudate and bacteria**,^{17,18} maintains an optimal wound healing environment,^{‡12,19-21} and works effectively without primarily relying on evaporation.^{21,22}

HighFLEX[®] Technology

Multi-way stretch **helps to fit around awkward body contours**.^{19,23}

ComfortSTAY[®] Technology

Our next-gen adhesive provides secure hold with gentle adhesion^{3,5,24,25} and **allows easy repositioning for skin checks**.^{24,25*}

ALLEVYN[®] COMPLETE CARE Dressing

Every wound tells a different story

And behind every dressing change, there is a patient living with hope – relying on you to help make a difference.

When estimates suggest that up to **1 in 50 adults**¹ are affected by chronic wounds in their lifetime, and **1 out of 10** hospitalised patients are impacted by HAPIs,² confidence in your choice of foam dressing matters now more than ever.

It's a decision that has the potential to change lives

With over 35 years of foam dressing innovation, we have a deep expertise and a proud heritage in advanced wound management. We understand the challenges you face – and the need to make every moment of care count.

We recognise the need to help you do your job better, with a purpose-built solution that helps deliver performance

Because we know wounds – and you know your patients

Together, we have the opportunity to combine innovation and insight. To help progress wound healing, protect fragile skin, and get patients back to what they love.

Your choice has never been so important

Every wound tells a story...

... let's help patients like Zoe^{*} rewrite the outcome

*Zoe does not represent an actual patient

Because every wound and every patient deserves complete care

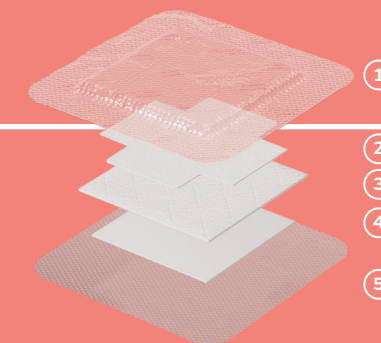

Patients like Zoe^{*} can get back to who they love with less concerns

about disruption to her day from leakage, detachment or dressing changes

ALLEVYN[®] COMPLETE CARE Foam Dressing is a true next generation dressing

Designed for strong performance in both pressure injury prevention and wound management, it's built to meet you daily challenges and help support healing.^{3,4}

Most importantly, it's built to get patients like Zoe **back to living the moments they love.**

By combining advanced technologies in one 5-layer dressing, ALLEVYN COMPLETE CARE Dressing helps to protect fragile⁵ skin and minimise disruption^{3,4} – optimising patient comfort⁶ and restoring confidence in care.

UNIQUE NEEDS, COMPLETE CARE

What does ALLEVYN[®] COMPLETE CARE Foam Dressing mean for you and your team?

It means caring – with confidence

- ✓ Confidence that your dressing will stay in place^{6,7}
- ✓ Confidence in achieving longer wear times up to 7 days⁸
- ✓ Confidence in protecting fragile skin⁵
- ✓ Confidence in undisturbed healing progression^{3,4}

With fewer unplanned dressing changes and fewer interruptions, you can have time back to focus on what really matters.

And as for your patients, they get the freedom to live the life that matters to them.

Patients deserve a life with improved comfort, less anxiety and fear of leakage.[†] Less focus on dressing changes,^{6,7} and more focus on helping patients – this is wound management as it should be.

Reclaim your time and focus on what truly counts

*As demonstrated in a volunteer trial. 120 volunteers wore the dressing on intact skin for up to 7 days on their thighs or shins

†Not clinically proven

Patients like Zoe can enjoy getting back

to the life they love
