

# + 30 years of meniscal repair: Common challenges and solutions

Smith+Nephew

# Academy

Education + Innovation + Excellence

## Faculty

**Dr. David Dejour**  
France

**Prof. Sebastian Kopf**  
Germany

**Mr. James Robinson**  
UK

**Dr. Silvio Villascusa**  
Spain

## Programme Description

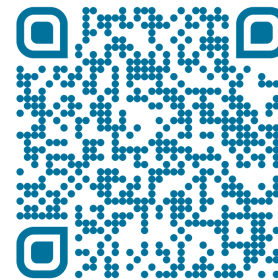

Join us for our webinar on meniscal repair, designed to celebrate the advances in meniscal surgery over the past three decades. This session will include case discussions and debates on the surgical approaches and strategies to treat different types of meniscal tears from our expert faculty. Attendees will also have an opportunity to ask questions and gain insights from these leading experts

## Learning objectives

- Evaluate the most recent clinical evidence on meniscal repair
- Recognise the indications for applying new technologies in meniscal repair surgery
- Identify techniques for individual patients in meniscal repair surgery by integrating optimal treatment algorithms

## Participant profile

- Intended for orthopaedic surgeons or physical therapists with a strong interest and experience in knee repair, with a desire to develop understanding of how different surgical approaches for meniscus can help improve patient outcomes
