FLOW 90[◇]
COBLATION[®] Wand

FLOW 90° has been shown to have a significantly faster ablation rate than other frequently used 90-degree arthroscopy wands^{4*}

A new innovative tip design...

- Triangular tip is designed to enable tissue manipulation
- Fits down a 5.0mm cannula
- Electrode engineered to tackle complex pathology

...combined with proven technology...

- FLOW~IQ° technology changes the size and intensity of the plasma field based on desired tissue effects to address various shoulder pathologies
- AMBIENT° technology provides accurate, real-time temperature monitoring of the intra-articular fluid^{1,2}
- SCOPE-SENSING° technology provides a higher level of protection for expensive surgical equipment^{3**}
- FLOW 90's integrated suction tubing eliminates the cost associated with a separate suction tubing line

Ordering information

FLOW 90° COBLATION° wand	
Reference #	Description
72290146	WEREWOLF+ Generator
72290038	FLOW 90 wand

*As demonstrated *in vitro* when tested at default settings; $p < 0.05$

**compared to QUANTUM° 2, demonstrated *in vitro*
