

# + Research to Reality: Applying REGENETEN◇ RCT Findings to Your Practice

Smith+Nephew

# Academy

Education + Innovation + Excellence

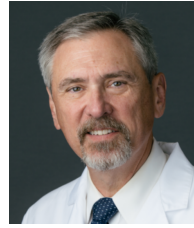

## Faculty:

**Michael  
O'Brien, MD**  
Moderator

**Jacob  
Calcei, MD**

**Xavier  
Duralde, MD**

**Miguel  
Ruiz  
Iban, MD**

### Program Description

This webinar will explore how the latest REGENETEN◇ randomized control trial data can be applied towards shoulder repair. Faculty explore new type I evidence for REGENETEN◇ and describe the journeys to adoption. Participants will learn through didactic lecture and faculty-led case discussion.

### Learning Objectives

After attending this event, participants should be able to:

- Analyze the most recent clinical evidence pertaining to the utilization of biologic augmentation in shoulder repair procedures.
- Evaluate the experiences of prominent surgeons in their adoption of REGENETEN◇

### Participant Profile

Intended for sports medicine surgeons or physical therapists interested in learning more about REGENETEN◇.
