Programme description

The INSPIRE Live Surgery Series is an interactive virtual education program for orthopedic surgeons, featuring live, step-by-step shoulder procedures with Q&A and expert insights.

Learning objectives

1. Recall procedural indications and surgical objectives across a range of shoulder procedures, including instability, rotator cuff, and reconstructive techniques.
2. Distinguish key anatomical landmarks, step by step surgical workflows, and technical considerations across different shoulder procedures as observed during live surgical demonstrations.
3. Demonstrate understanding of intraoperative decision making, procedural specific technical challenges, and postoperative management principles to support safe surgical practice.

Surgical Curriculum

6 Sessions | Jun-Nov 2026

Phase I – Instability Repair

18 June 2026
Bankart Repair
Session 01

22 July 2026
Posterior Labral Repair
Session 02

Phase II – Rotator Cuff Repair & Advanced Reconstruction

11 August 2026
Partial Repair with REGENETEN
Session 03

10 September 2026
Full Thickness Tear with REGENETEN
Session 04

15 October 2026
Full Thickness Tear with Bridging Reconstruction
Session 05

26 November 2026
Lower Trapezius Transfer
Session 06
