

ICD-10 Procedure Codes for Smith+Nephew OXINIUM[◇] Oxidized Zirconium Implants Used in Hip and Knee Replacements

Effective October 1, 2017, the Centers for Medicare and Medicaid Services (CMS) granted new ICD-10 PCS procedure codes for oxidized zirconium on polyethylene hip and knee implants. CMS considered OXINIUM's unique material properties, clinical data, and public input in its decision to create new ICD-10 PCS codes.

Currently, OXINIUM is only manufactured by Smith+Nephew. Smith+Nephew's OXINIUM implants are recognized as separate and distinct bearing surfaces used in hip and knee replacement procedures. Government and private payers, joint registries, researchers, hospitals and many others now can track this bearing surface separately from other bearing surfaces. To ensure appropriate tracking and resource accuracy, hospitals, registries and other tracking organizations should ONLY use the ICD-10-PCS codes listed below when reporting oxidized zirconium on polyethylene hip and knee implants used in total joint replacement procedures.

Hip ICD-10-PCS

OSR9069 Replacement of Right Hip Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Cemented, Open Approach

OSR906A Replacement of Right Hip Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Uncemented, Open Approach

OSR906Z Replacement of Right Hip Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Open Approach

OSRB069 Replacement of Left Hip Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Cemented, Open Approach

OSRB06A Replacement of Left Hip Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Uncemented, Open Approach

OSRB06Z Replacement of Left Hip Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Open Approach

Knee ICD-10-PCS

OSRC069 Replacement of Right Knee Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Cemented, Open Approach

OSRC06A Replacement of Right Knee Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Uncemented, Open Approach

OSRC06Z Replacement of Right Knee Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Open Approach

OSRD069 Replacement of Left Knee Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Cemented, Open Approach

OSRD06A Replacement of Left Knee Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Uncemented, Open Approach

OSRD06Z Replacement of Left Knee Joint with Oxidized Zirconium on Polyethylene Synthetic Substitute, Open Approach
