

+ INSPIRE Complex Shoulder Instructional Course

11-12 April 2025

Smith+Nephew

Academy

Education + Innovation + Excellence

Course Description

Led by renowned international faculty for sports medicine, this advanced shoulder instructional course aims to provide an interactive platform that will equip you with the latest knowledge and techniques to tackle complex shoulder pathologies in athletes. Don't miss this opportunity to elevate your skills in treating shoulder conditions in athletes!

Learning Objectives

By attending this course, delegates will be able to:

- Acquire knowledge and develop skillsets through hands-on cadaveric practice with advanced techniques and instrumentations for the management of various complex shoulder pathologies
- Discover key tips & tricks from expert-level faculty in shoulder repair & management through live cadaveric demonstration with key focus on complex instability, glenoid bone loss and massive rotator cuff injuries
- Appreciate the latest scientific data that supports the different techniques in the field of complex shoulder injuries management using Smith+Nephew latest solutions and technologies

Participant Profile

Orthopaedic surgeons in practice with a focus on sports medicine with a minimum of 8 years experience post fellowship with a desire to expand their surgical skills in minimally invasive shoulder repair. Proficiency in English language for effective participation.
