

+ Go beyond the repair

Optimised sharpness^{1,2}

An essential part of Hip Repair Solutions

Smith+Nephew

CAP-FIX[◇]
Capsular Management Family

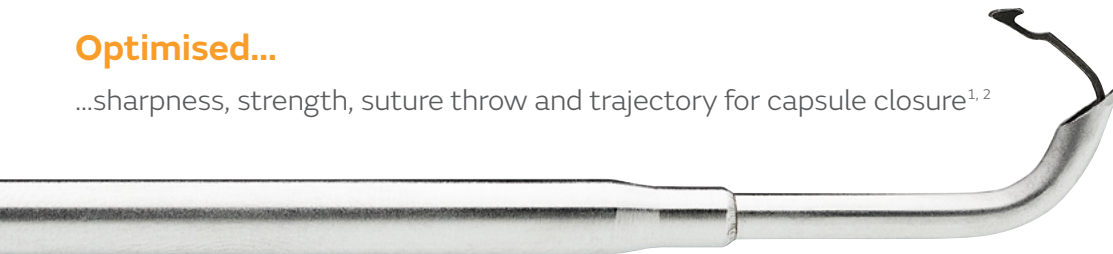

CAP-FIX[◇] Suture Passer

Smith+Nephew now offers a family of products for all your Capsular Management needs. From open to close, start your successful capsulotomy with our range of CAP-FIX Blades before completing the repair using our range of CAP-FIX Suture Passers.

Sharpen your technique and go beyond the repair with the latest addition to Smith+Nephew's evolving hip repair solutions.

Optimised...

...sharpness, strength, suture throw and trajectory for capsule closure^{1,2}

Compatible...

...with #2 Vicryl^{TM2}, #2 ULTRABRAID[◇], MINITAPE[◇] and MAGNUMWIRE[◇] Sutures. Vicryl suture has been shown to be less damaged by the CAP-FIX Suture Passer than the Stryker SlingShot^{TM3}

MINITAPE Suture

#2 ULTRABRAID Suture

#2 Vicryl Suture

Streamlined...

...approach reduces the number of steps required for capsule closure compared to suture shuttling¹

Ability...

...to reach clinically relevant zones for closure of interportal and T-Capsulotomy¹

Available in 45° and 70° angles

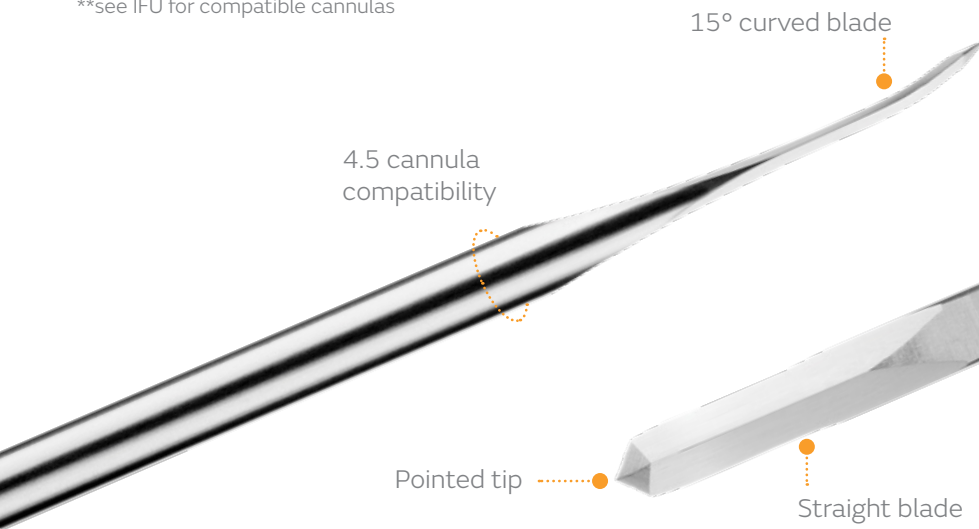

CAP-FIX[◇] Blade

A single piece design*...

- Available in curved and straight blades
- Textured handle to aid in gripping
- Working length able to fit down all standard Smith+Nephew hip length cannulas**

*applies only to pencil grip blade configurations

**see IFU for compatible cannulas

No breakage...

...when withstanding extreme deformation⁵

Optimised...

...sharpness to cut through hip capsule tissue to perform Interportal and T-Capsulotomy⁴
