

+ Precision in Tonsillectomy: Exploring Coblation Intracapsular Techniques

10 April 2025

Smith+Nephew

Academy

Education + Innovation + Excellence

Course Description

This Webinar on Coblation Intracapsular Tonsillectomy (CIT) provides healthcare professionals with a focused understanding of the technique. Participants will explore the fundamentals of CIT, including wand selection, procedural precision, and anaesthetic considerations, while learning collaborative strategies to optimise patient care. Expert-led discussions and interactive Q&A sessions aim to enhance technical skills and facilitate the integration of CIT into clinical practice.

Learning Objectives

By attending this course, delegates will be able to:

- Describe the fundamental principles, benefits and clinical outcomes of Coblation Intracapsular Tonsillectomy (CIT) compared to traditional tonsillectomy techniques.
- Evaluate wand selection and procedural techniques critical to achieving precision and efficiency in CIT
- Understand the anaesthetic considerations and collaborative approaches to optimise patient safety and outcomes during CIT procedures.
