

The power of planning a robotic-assisted surgery at your fingertips

Smith+Nephew

CORI[◇]
Virtual Planner

Same functionality you'll see in surgery

Virtual planning tool aimed at shortening the learning curve

Refine skills and practice case planning without the pressure of live surgery

CORI Virtual Planner provides an interactive, fully functional software tool for surgeons to become familiar with creating a surgical plan on the CORI Surgical System.

This on-demand tool is accessible anywhere, anytime through S+N Academy Online – an on-line accredited platform offering comprehensive educational materials, interactive courses, and valuable resources from world-class surgeons and thought leaders on robotic-assisted surgery.

- Create a surgical plan in a training environment based on your philosophy
- Select a patient-specific deformity and practice gap balancing
- Select and change implants and poly thickness

Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your Smith+Nephew representative or distributor if you have questions about the availability of Smith+Nephew products in your area.
