Smith-Nephew

Safety Data Sheet <u>According to Hazard Communication Standard (29 CFR 1910.1200)</u> SECURA No-Sting Barrier Film and Prep Spray

1. Identification				
Product name	SECURA No-Sting Barrier Film and Prep Spray			
Synonyms	-			
CAS#	See section 3			
Product use	Skin Preparation			
Manufacturer/Supplier	'			
Supplier(Manufacturer):	Smith & Nephew, Inc. Advanced	Smith & Nephew, Inc. Advanced Wound Management		
Address:	4900 West Vickery Boulevard			
	Fort Worth, TX 76107			
	USA			
Contact Details:	Contact Details: For telephone and email contacts:			
	Telephone: 800.876.1261 (Toll Fi			
		rofessional/contact-us-choice/contact-us-		
	awm/			
Emergency telephone Number:	Chemtrec: 1-800-424-9300; 1-70	03-741-5970		
2. Hazard(s) identification				
GHS classification				
Physical hazards	Flammable liquids	Category 2		
Health hazards	Not classified			
Environmental hazards	Not classified			
GHS label elements				
Hazard Pictograms				
Signal word	Danger			
Hazard statement	Highly flammable liquid and vapo	Highly flammable liquid and vapor.		
Precautionary statement				
Prevention	Keep away from heat/sparks/ope	n flames/hot surfaces. — No smoking.		
	Keep container tightly closed.	Keep container tightly closed.		
	Ground/Bond container and recei	Ground/Bond container and receiving equipment.		
	Use explosion-proof electrical/ver	Use explosion-proof electrical/ventilating/lighting equipment.		
	Use only non-sparking tools.	Use only non-sparking tools.		
	Take precautionary measures ag	ainst static discharge.		
	Wear protective gloves/eye protection/face protection.			

Document Part: 000 **Document Number:** 2009254 Document Version: Document Status: Released 04

Response	immediately all contaminated clothing. Rinse skin				
	with water/shower. In case of fire: Use extinguishing powder, sand, alcohol-resistant foam dioxide to extinguish.				
Storage	Store in a well-ventilated place. Keep cool.				
Disposal	Dispose of contents/contain	Dispose of contents/container in accordance with local regulation.			
Other hazards	Not available.	Not available.			
3. Composition / information on i	ngredients				
Components	CAS#	Percent			
Disiloxane, hexamethyl-	107-46-0	75-100%			
4. First-aid Measures					
First aid procedures					
Eye contact		Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.			
Skin contact	Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.				
Inhalation	Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.				
Ingestion	If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.				
Notes to physician	Treat symptoms.				
5. Fire-fighting measures	I				
Flammable properties	Not available.				
Extinguishing media					
Suitable extinguishing media	Extinguishing powder, sand, alcohol-resistant foam, carbon dioxide.				
Unsuitable extinguishing media	Not available.				
Firefighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Protective respirator with independent air supply. According to size of fire Full protection, if necessary. Dispose of contaminated extinction water according to official regulations.				
Hazardous combustion products	Oxides of Carbon.				
6. Accidental release measures	•				
Personal precautions	Put on appropriate personal	protective equipment (see section 8).			
Environmental precautions	Do not allow spills to enter drains or waterways. Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.				

Methods for cleaning up	Isolate area and keep unnecessary personnel away. Pick up with absorbent material (e.g. sand, acid binder, universal binder, sawdust). Send in suitable			
	containers for recover or disposal.			
7. Handling and storage				
Handling	Vapors can form an explosive mixture with air. Take precautionary measures against static charges. Keep away from sources of heat and ignition. Use explosion-proof equipment/fittings and non-sparking tools. See section 2 for further details [Prevention].			
Storage	Handle containers carefully to prevent damage and spillage. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Always keep in containers of same material as the original one. Keep container tightly closed and dry in a cool, well-ventilated place. Protect from direct sunlight. See section 2 for further details [Storage].			
8. Exposure controls / personal p	rotection			
Control parameters:				
Occupational exposure limits	This mixture has no PEL, TLV, or other recommended exposure limit.			
Biological limit values	No biological exposure limits noted for the ingredient(s).			
Appropriate engineering controls:	Use in a well-ventilated area.			
Individual protection measures, such as	personal protective equipment:			
Eye / face protection	Wear safety glasses with side shields.			
Skin protection	Wear appropriate clothing for the industrial setting.			
Respiratory protection	If workers are exposed to concentrations above the exposure limit they must use the appropriate, certified respirators.			
General hygiene considerations	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing.			
9. Physical and chemical properti	es			
Appearance				
Physical state	Liquid			
Form	Liquid			
Color	Colorless			
Odor	Odorless			
Odor threshold	Not available			
рН	Not available			
Vapor pressure	Not available			
Vapor density	0.76g.cm3			
Boiling point	37°C
